

"Climate justice is about intersectional equity. It is about being radically inclusive of all groups of people, so that everyone has access to clean air, food and water. As a dear friend always says 'climate justice isn't just for the rich and white.' It is a fight alongside those who are displaced; whose rivers have been poisoned; whose lands were stolen; who watch their houses get washed away every other season; and who fight tirelessly for what are basic human rights." - Disha Ravi, youth activist
